We are extremely grateful to all for their care and dedication and for sharing their expertise in working toward a better understanding of melorheostosis and better care for melorheostosis patients.

Important note to patients: All of the above information is offered as a resource for patients seeking care. It is, of course, the responsibility of patients and parents of patients to verify whether a particular provider meets their needs. Only by asking questions and seeking information can you determine if a particular place is a good fit for you.
